Posted By: Jennifer Rosenberg, Esq. of Bramson, Plutzik, Mahler & Birkhaeuser, LLP

Message:

The parties have previously stipulated that this motion may be submitted on the papers. Plaintiffs respectfully request that the Court deem the motion submitted so that a ruling may be made forthwith or as soon as reasonably possible to allow the settlement, including the injunction to which DIRECTV has agreed, to go into effect.

There have been no objections or opt-outs.

This result is particularly appropriate because the Court's minute order following the fairness hearing on October 22, 2019 indicated that the Settlement merited final approval and that the only issue that required additional briefing related to the severable issue of whether the Court should approve the incentive awards that Defendant DIRECTV, as part of the settlement, agreed to pay to the lead plaintiffs. Plaintiffs duly submitted this briefing on October 29, 2019, and lodged a proposed Final Order and Judgment on October 31, 2019.

The parties also remain available for a telephonic hearing should the Court deem one necessary.
